

Primary COVID policies for this basketball season:

1. For every practice and game, **only 1 parent will be allowed in the building/gym with each player**. This will greatly help us control the total amount of people who are inside our facility each hour in order to best protect you from the spread of COVID.
2. Every person who enters our facility will be **required to wear their mask for the entirety of the time they are inside**. The only exception to this rule will be that basketball players who are actively playing on the court will NOT have to wear their mask. During timeouts, halftime, and for those on the sidelines, players will have to pull their masks up over their nose and mouth.
3. Our staff will scan everyone's (parents, coaches, and players) forehead temperature to ensure it is below 100.4°F before they can enter the facility.
4. Practices and game schedules will be spaced out in order to eliminate any "cross traffic" in our lobby from teams leaving and arriving. Parents and players on teams that are about to practice or play a game will be asked to stay outside in their cars until the gym has been cleared of the previous teams.
